

**DIES WHEN EFFORT  
TO SAVE PAL FAILS**

Two Trackwalkers Killed on Elevated Structure of Long Island Railroad in Brooklyn.

In a vain effort to save the life of a fellow trackwalker, Alphonse Auerchione was instantly killed this morning with John Piscitella by an express train of the Long Island Railroad. Both lived in Brooklyn.

The accident occurred on the elevated structure on Atlantic Avenue just west of Ralph Avenue in this morning rush hour. Blocking of trains in both directions for more than half an hour delayed thousands going to work.

The men had walked through the tunnel from East New York and were returning toward the city when the third rail. Piscitella leaped for the walkway between the tracks, not noticing trains were approaching. Auerchione tried to snatch him from the train's path, but both were struck.

**COOLIDGE VISITS  
SENATOR HARDING**

Confer at Marion on Plan to Give Vice President's Part in Government.

MARION, O., Dec. 16.—Making good another of his campaign pledges, Senator Harding today sought the advice of Vice President-elect Coolidge on the problems and policies of the coming administration.

Although the plan for an association of nations is understood to have been one of the principal points to be discussed at the conference, it is known that Gov. Coolidge's invitation to Marion was accorded in a large part by the desire of the President-elect to secure his advice on various domestic questions.

One of Mr. Harding's first announcements after his nomination was his

promise of a more active part for the Vice President in the next administration, and now that actual experience has brought home to him the wide range of subjects with which a President must deal, he is understood to be even more anxious to let Mr. Coolidge share some of the administration responsibility.
